MONEY, BONDS AND STOCKS. A Very Active Market in New York, with Advences in Almost All Securities. NEW YORK, June 12 .- Money on call was

easy at 102 per cent, the last loan being made

at 2 per cent; closing offered at 2 per cent

Prime mercantile paper, 4064 per cent. Sterling exchange was dull but steady at \$4.862 for sixty-day bills and \$4.882 for de-

The total sales of stocks to-day were 338,847 charce, including the following: Canada Southern, 5,400; Delaware, Lackawanna & Western, 8,706; Erie, 11,420; Lake Shore, 17,750; Leuisville & Mashville, 6,190; Manhattan consolidated, 7,-535; Missouri Pacific, 14,655; Northwestern, 16,-960; Northern Pacific, preferred, 4,600; Reading, 98,130; Richmond & West Point, 13,060; St. Paul, 54,364; Union Pacific, 20,010; Western

Union, 13,350. The stock market was again very active to-

day, with a feverish and weak tone in the forenoon, which was succeeded by a rally later in the day, which brought prices up to, in most sases, above last night's figures. The Grangers and Gould stocks were once more the centers of attention, and in both these were wide and vioent finetuations, while outside of the two rroups there was very little interest in the martet. The market opened very active and de-nidedly weak, not to say demoralized, London and the traders selling, while the only support beemed to some from the covering operations of few professionals. First prices were from to per cent lower than last evening's lenges in the general list, while Manhattan ned down over four points, with much excite ment. A great feature, however, was the heavy demand in the loan crowd, which was said to be the largest for years, all the active stocks loanthe largest for years, all the active stocks loaning flat and one or two at a premium. The depline in Manhattan was on the expected reduction in the dividend, which was afterward officially announced, and the stock led the decline in the market, losing 3½ per cent further before the bottom was reached. The general list was active and very feverish, though, outside of the leading weak stocks, prices were fairly well maintained, but beside Manhattan, Missouri Pasifie, St. Paul preferred and Manitoba were conspicuously weak. The losses in the general list were confined to fractions, and loward noon a material reaction occurred, he general list were confined to fractions, and howard noon a material reaction occurred, though this was followed by a renewal of the faciline in the early portion of the afternoon. This, however, was of little moment, and after 1 P. M. good buying was noticed all along the line, and one house is said to have bought 50,-600 shares, which served to turn the tide, and before 2 o'clock prices were, in most cases, above those of the opening. The best figures were generally reached about delivery hour, when the market became very dull once more, though it remained firm throughout, the close eing firm at or near the best prices of the day.
The covering of "shorts" was very heavy in

the afternoon, and many prominents "bears" are said to have changed front and gone "long" of the market at the low prices of the forenoon. The amount of business done was larger than on any day for a long time. The final changes are somewhat irregular, but advances are in a majority, though for the most part for fractions only. Western Union and Rock Island, however, rose I per cent. each, while Manhattan

The railroad bond market was quiet to dull, and it sympathized closely with the share list, leaving prices irregularly changed. The sales were \$1,185,000, and to that amount Wabash, Chicago division, transfer receipts contributed \$104,000, and Burlington. Nebraska tours, \$96,000; St. Paul, I. & M. sevens, lost 3, at 116; Chicago Indiana Coal fives, 2, to 98; Milwaukee, Lake Green Bay incomes, 24, at 30.

CHICAGO, June 12.—Wheat to-day was un-settled, and an easier feeling existed, with the various deliveries gradually settling into their natural position. A feature of the market was the selling of August at a premium over July, and December at a wider premium than yesterday. A good business was transacted in a speculative way, both on outside and local account. mlative way, both on outside and local account. The opening was about the same to a shade easier than yesterday's closing figures, but a tame feeling set in, being a continuation of the weakness of yesterday, which developed into a rather heavy feeling. Fair realizing assisted the weakness. Prices for July declined 1½c, August ½c, and December ¿c. At this decline a better demand developed, which checked the declining tendency, and prices took an upward course, with the deferred futures showing the most strength. July advanced ½c. August ½c. most strength. July advanced ic, August lie, and December lie, and closed for the morning session to lower for July, to higher for August, and to higher for December than the closing figures yesterday. In the afternoon an advance of † 2 to was established. Receipts show no sort of change in any quarter, but the export clearances were larger and had a strengthening effeet. Corn was active, and in both the cash and speculative markets the feeling developed was stronger. The market opened about ic over the elosing prices of yesterday, due to the receipts being nearly 100 cars less than expected; was easy for a time, declining ic, influenced, to a considerable extent, by the easier feeling in wheat. Upon the decline an active demand aprung up, several bouses buying freely, which started local "shorts" to ly, which started local "shorts" to covering, and in doing so prices were advanced lie, reacted it, ruled irregular and closed for the morning session 101ic higher than yesterday. On the afternoon board there was a further advance of 10ic. For oats at the opening there was a weak feeling in the speculative market, without any well-defined cause, only that the market was dull. June delivery sold market was dull. June delivery sold down to, and other futures were to lower early. There was subsequently a better market, influenced, no doubt, by an advance in corn and a good cash demand for oats. The later change caused July delivery to sell and higher, and elosed with ic improvement; for other de-liveries the market became steady at a shade above yesterday's final prices. The provision trade was a little weaker in its tone. Short ribs and lard were held quite firmly, but in

INDIANAPOLIS MARKETS.

Trade Only Moderate, with Prices as a Rule Firm and Steady.

INDIANAPOLIS, June 12. The common remark in trade circles is that trade is moderate, some days being quite brisk, others dull. The strong tone to prices on most lines of goods is a matter of surprise when trade, as a rule, is so disappointing. Dry goods men are experiencing quiet times, but prices on all descriptions of goods rule firm and, in some cases, are upward in their tendency. Leatherdealers report trade fair and prices stendier in tone; while there have been some fluctuations East, this market has not been affected. Hides remain dull. Receipts continue free and prices weak. Grocers are having a fair trade. All staple articles rule firm, and sugars and coffees show an advancing tendency. Fruits are arriving more freely. New apples vary in quality. and it is difficult to quote them correctly Peaches sell slow; quality poor. But few red and black raspberries on the market, as yet. Strawberries are not in excess of the demand. consequently prices rule firm. New potatoes in good supply, with a firmer tone to prices. But little demand for old potatoes. Green peas and beans in fair supply; prices weaker. Poultry in better demand; prices firm at the advance of Monday. Eggs in good demand, and our best quotation readily realized on fresh stock. Dried fruits selling slow. Lemons are meeting with better sale; prices steady. Oranges in light supply, and very firm at our best quotations. Bananas a drug on the market; prices rule

GRAIN. A disappointing market covers the local situation; a free buyer would be a surprise on Change. The Indianapolis Market Report say "The movement of grain shows a small improvement since the last report. Local receipts are considerably heavier, the inspection report for the past two days showing 46 cars inspected,

market is heavy. Bran-There is little or no lemand, and the priors bid are nominal. Hay-Demand continues good, and prices are well maintained." Track bids to-day ruled as fol-
